VIPER II Under-Slab Vapor Barriers

LA Fitness state-of-the-art clubs span the entire U.S. With the first club opening in 1984, LA Fitness now has 606 locations and continues to grow. Insulation Solutions is proud to have our premium under-slab vapor barrier under the ground protecting the life of the slab!
More about VIPER II>>

Product Spotlight: WRAPTOR HOUSE WRAP

Wraptor is a breathable cross-woven polypropylene house wrap that helps prevent wall sheathing from soaking up moisture that gets behind the exterior cladding (vinyl siding, brick, etc.). Its cross-woven quality gives it extra strength to help prevent tearing from the building after installation.

Standard Roll Sizes:

- 3' x 100'
- 9' x 100'
- 10' x 100'
- 3' x 150'
- 9' x 150'
- 10' x 150'

Try Wraptor, the house wrap with the tear resistance of a premium wrap at an economical price!
