

SPACE AGE®

Experience Space Age®!

Space Age® is a premium reflective bubble insulation that can be used virtually anywhere to protect against heat gain and loss. Its aluminum surface blocks up to 97% of radiant heat, saving energy in both warm and cool climates.

Applications

- Post frame/metal buildings
- Residential attics
- Radiant heating
- Concrete/block walls
- Duct-Wrap & Water heater jackets

Benefits

- Creates a vapor barrier
- Provides a thermal break
- Reflects radiant energy
